Montauban de Bretagne, 08 April 2022

Dear Sir,

Recommendation letter for Sandip CHAUDHARY

I undersigned Eric GUITON, project manager of the Boccard company, certify that Mr Sandip CHAUDHARY was indeed employed within our services from 10 October 2021 to 10 April 2022.

Sandip was able to adapt quickly in a new environment like ours to be independent in his position as site manager. Sandip has invested with great professionalism in all the missions entrusted to him. In the context of a global pandemic and with the Japanese border close it was difficult for our team to come in Japan. Sandip was able to meet the challenges of successfully taking up a position in a job he had never done before "Site manager". His drawing skills, including ISO, and his knowledge of equipment were a great help in monitoring the mechanical progress of our project in Japan.

Curious, responsible, very involved, Sandip loves challenges and getting involved in new projects. With a strong team spirit, he was our relay on site to give us the daily progress of the mechanical subcontractors by remote. He has also always known how to work independently and responsibly throughout his mission.

For all these reasons, we strongly recommend the application of Sandip CHAUDHARY within your teams. We are convinced that he will bring you, through his professional experience, real added value and we wish him much success in his professional career.

Thanking You,
Yours Faithfully,

Eric Guiton
Project Manager – Japan Projects
